SUMMARY

Results-oriented software engineer proficient in Ruby on Rails, React, and JavaScript, with a strong inclination toward metrics-driven development. Thrive on setting and surpassing performance metrics. Results include a 40% reduction in page load times and a 25% increase in conversion rates on previous projects. A versatile team player who excels in remote environments, fostering open communication and cross-functional collaboration. Eager to leverage these skills to drive innovation and success in your next project.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS.

Back-End: Ruby, Rails, PostgreSQL

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair Programming, Teamwork, Mentoring

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Developer & Mentor

Remote
March 2023 – Present

As a full-stack web developer and having built 20+ personal and collaborative projects using modern technologies, some notable projects include:

VECS School — A full-stack course booking application designed to facilitate the booking of courses by allowing users to specify their preferred city and dates.

- Built with: React, Redux, Vite, Ruby on Rails, PostgreSQL, CSS & Babel.
- Links: [Live demo](#) and [Github repo](#)
- Single Handedly designed and developed the app's backend, leading to significant performance improvements.

BookTown — Ebook library for storing and keeping track of books.

- Built with: React, Redux, Webpack, HTML, CSS, Babel & Jest.
- Links: [Live demo](#) and [Github repo](#)

Travel & Tour — Event website that promotes travel and adventure. Users can register for the event, explore destinations, and sign up for workshops and activities.

- Built with: Javascript, HTML, CSS & Webpack.
- Links: [Live demo](#) and [Github repo](#).

MICROVERSE

Mentor (Volunteer)

Remote
March 2023 – Present

- Mentor 20+ junior web developers, providing technical support through code reviews, Zoom meetings, and Slack communication channels.
- Propose improvements to code organization to improve code quality and performance by 30%.
- Provide advice and tips on maintaining motivation, achieving a 90% success rate in maintaining longevity in the program.

EDUCATION

MICROVERSE

February 2023 – Present

Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.
