Christian Chukwubuikem Onoh

FULL-STACK WEB DEVELOPER

chibyk5000@gmail.com | GitHub | LinkedIn | X (Twitter) | Medium | Portfolio

SUMMARY

I'm a skilled Full-stack web developer with a passion for open-source projects. I'm all about making websites super fast, tidy, and easy to use. I know a bunch of coding languages, tools, and tricks, and I can pick up new ones in a snap! Plus, I'm a big fan of teaming up with others, even if we're miles apart. Together, we can create some seriously awesome stuff!

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS.
Back-End: Ruby, Rails PostgreSQL
Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools
Professional: Remote Pair Programming, Teamwork, Mentoring

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Development Student & Mentor   March 2023 – Present

As a full-stack web development student, I have built multiple personal and collaborative projects using modern front-end technologies. Some of my notable projects include:

VECS School — A full-stack course booking application designed to facilitate the booking of courses by allowing users to specify their preferred city and dates.
- Built with: React, Redux, Vite, Ruby on Rails, PostgreSQL, CSS & Babel.
- Links: Live demo and Github repo

BookTown — Ebook library for storing and keeping track of books.
- Built with: React, Redux, Webpack, HTML, CSS, Babel & Jest.
- Links: Live demo and Github repo

Travel & Tour — Event website that promotes travel and adventure. Users can register for the event, explore destinations, and sign up for workshops and activities.
- Built with: Javascript, HTML, CSS & Webpack.
- Links: Live demo and Github repo.

MICROVERSE   Remote
Mentor (Volunteer)   March 2023 – Present
- Mentored 20+ junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on maintaining motivation to maintain longevity in the program.

EDUCATION

MICROVERSE   February 2023 – Present
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.
